

The 23rd Annual CQ World Wide WPX Contest

**SSB: March 24-25, 1979
& C.W.: May 26-27, 1979**

I Contest Period: Starts 0000 GMT Saturday. Ends: 2400 GMT Sunday. Only 30 hours of the 48 hour contest period permitted for Single Operator stations. The 18 hours of non-operating time may be taken in up to 5 periods anytime during the contest, and must be clearly indicated on the log. Multi-operator stations may operate the full 48 hours.

II Objective: Object of the contest is for amateurs around the world to contact as many amateurs in other parts of the world as possible during the contest period.

III Bands: All bands, 1.8 thru 28 MHz, may be used.

IV Type of Competition: 1. Single Operator (a) All Band, (b) Single Band. 2. Multi-operator, All Band **only**. (a) Single Transmitter, (only one signal permitted), (b) Multi-Transmitter, (one signal per band permitted).

V Exchange: SSB: RS report plus a progressive three digit contact number starting with 001 for the first contact (i.e. 59001). C.W.: RST report plus a progressive three digit contact number starting with 001 (i.e. 599001). Continue to four digits if past 1000) Multi-transmitter stations use separate numbers for each band.

VI Points: 1. Contacts between stations on different continents; count 3 points on the 14, 21, and 28 MHz. bands, and 6 points on the 7, 3.5 and 1.8 MHz. bands.

2. Contacts between stations in the same continent but not in the same country; count 1 point on 14, 21 and 28 MHz. (Exception: Contacts between different North American countries count 2 point on 14, 21 and 28 MHz. and 4 points on 7, 3.5 and 1.8 MHz. This applies to North American countries **only**).

3. Contacts are permitted between stations in the same country for the purpose of

obtaining a Prefix multiplier, but have no QSO point value.

4. A Station in a call area different than that indicated by its call sign is required to sign portable. The portable Prefix would be the multiplier as indicated in Section VII (below).

VII Multiplier: The multiplier is determined by the number of different prefixes worked. A "PREFIX" is counted once during the entire contest regardless of how many times the same prefix is worked.

A "PREFIX" is considered to be the three letter/number combination which forms the first part of an amateur radio call. (N1, W2, WB3, K4, AA6, WD8, 4X4, DL7, G3, IT9, KH2, AL7, NP2, WP4, 9M2, CT9, 4J9, PY7, VK4, JE3, VE3, etc.). See the WPX Awards Program information if additional clarification is necessary. It is available from K6XP.

Special event, commemorative and other unique prefix stations are also encouraged to participate.

VIII Scoring: 1. Single Operator (a) All Band score, total QSO points from all bands multiplied by the number of different Prefixes worked. (b) Single Band score, QSO points on that band multiplied by the number of different Prefixes worked. See VII.

2. Multi-Operated stations. Scoring in both these categories is the same as the All Band scoring for Single Operator.

3. A station may be worked once on each band for QSO point credit. However, prefix credit can be taken only **once** regardless of the band.

IX QRPp SECTION: (Single Operator Only). Power must not exceed 5 watts output to qualify for QRPp section competition. You must denote QRPp on the summary sheet and state the actual maximum power output used

for all claimed contacts. Results will be listed in a separate QRPp section and certificates will be awarded to each top scoring QRPp station in the order indicated in Section X. These certificates will be marked QRPp and show your power output. QRPp stations will be competing only with other QRPp stations for awards. All other information contained in these rules is applicable to this section.

X Awards: Certificates will be awarded to the highest scoring station in each category listed under Sec. IV.

1. In every participating country.
2. In each call area of the United States, Canada, Australia, and Asiatic USSR.

All scores will be published. However, to be eligible for an award, a Single Operator station must show a minimum of 12 hours of operation. Multi-operator stations must show a minimum of 24 hours.

A single band log is eligible for a single award **only**. If a log contains more than one band it will be judged as an all band entry, unless specified otherwise. However, a 12 hour minimum is required on the single band.

In countries or sections where the returns justify, 2nd and 3rd place awards will be made.

XI Trophies & Plaques: (Donors)

SSB

1. WORLD—Single Operator, Single Band (Jack Reichert, W3ZKH)

2. WORLD—Single Operator All Band. (North Florida DX Assn.)

3. WORLD—Multi-operator Single transmitter. The Ted Thorpe, ZL2AWJ Memorial. (Don Miller, W9WNV)

4. WORLD—Multi-operator, Multi-transmitter. The Chuck Swain, K7LMU Memorial.

1979 World Wide WPX SSB Contest

Call Sign: **WBIMZ** Country: **U.S.A.**

Single Operator: Multi-Operator (All Band Only):
 All Band: Single Band: Single Transmitter: Multi-Transmitter:

Time (min)	QSO's	Prefixes	Score	Time (min)	Time Period (Single Operator Bandwidth Only)
1.8 mc	21	29	9	1.8 mc	
3.6 mc	24	48	13	3.6 mc	0300-0500
7.0 mc	32	69	16	7.0 mc	0630-1100
14 mc	133	301	81	14 mc	2230-0530
21 mc	56	157	29	21 mc	0700-1000
28 mc	54	104	24	28 mc	2230-2400
All Bands	320	708	172	All Bands	Total: 18 hrs

How to score: QSO Points x Prefixes = FINAL SCORE.
 A Prefix is counted only once. Score below line for All Band Score. (Do not add score from each band.)

Station Description: _____
 Antenna(s): _____
 Operator: _____

CLUB COMPETITION: DAYTON AMATEUR RADIO ASSN.

This is to certify that in this contest I have operated my transmitter within the limitations of my license and have observed fully the rules and regulations of the contest.
